Large Animal
Additional Journal Article List 2016

This list contains articles 3-10 years old from core journals and articles within the last 10 years from non-core journals and is designed to bridge a perceived gap in the recommended reading between recent journal articles, non-core journals and textbooks. It contains article the committee deems likely to inform and impact the practice of veterinary ECC. We aim to keep this list to <100 articles and will review and update it annually. Large animal candidates should appreciate that the majority of these articles are non-species specific and shared with small animal candidates. This means that they can be used for questions on the general multiple-choice exam.

ACID-BASE, FLUIDS, & ELECTROLYTES

ANESTHESIA/ANALGESIA
None

CARDIOVASCULAR

COAGULATION/TRANSFUSION MEDICINE
7. PROVETS issue of J Vet Emerg Crit Care. 2014; 24(1): 1-130. This has been included to make candidates completely aware that this information is testable despite a small animal focus of some articles.
