All Things Missouri

Your gateway for interactive mapping, reports, and insights into issues facing Missourians.
HEALTHIEST COMMUNITIES

And many more…
* National data includes over 15,000 maps.
Recommitting to All Things Missouri

Listen and Learn by the numbers

- 53 events
- 42 community conversations
- 1,200 people, both urban and rural, from all 114 counties

What do Missourians want? What do the data show?

Grand Challenges for MU Extension & Engagement

- Economic Opportunity
- Healthy Futures
- Educational Access and Excellence

“This tool will help extension better determine community needs.”

MAPS

Create an interactive map in the Missouri Map Room or click a topic-based map and zoom to your area.

**Business Starter Map**
Get started with map layers related to the business environment, including the labor market engagement index, locations of airports, and public libraries.

*in: Business & Community*

**Substance Abuse Starter Map**
Get started map layers showing mental health and substance abuse treatment facilities, drug overdose mortality rates, and total number of prescription opioid drug claims by ZIP Code.

*in: Health & Safety*

**Youth Mental Health Starter Map**
Get started with layers related to youth mental health, including homeless youth, youth mental health centers, and adverse childhood experience (ACES) scores.

*in: Health & Safety, Youth & Family*
Data Visualization Tools
Create an interactive report for your community. Select one of the four topic-based reports to get started.

**Agriculture & Environment Report**
This report provides a selected set of indicators related to agriculture and the environment. Maps and data are available for individual counties and groups of counties.

**Business & Community Report**
This report provides a selected set of indicators related to businesses and communities. Maps and data are available for individual counties and groups of counties.

**Health & Safety Report**
This report provides a selected set of indicators related to health and safety. Maps and data are available for individual counties and groups of counties.
